Dear Mr. Silvestrini:

I wanted to thank Pest Control Technicians, Inc. for applying for membership in the Pesticide Environmental Stewardship Program (PESP). Membership in PESP shows your company's commitment to environmental stewardship in pest control, and I applaud the steps Pest Control Technicians has already taken toward reducing pesticide risks. Based on the information provided in your application and the associated PESP strategy, we would like to extend membership in PESP to your organization.

My staff and I look forward to building our partnership and advancing together toward our common goals. I am convinced that, in the years to come, we will point with pride to a legacy of reduced human health and environmental risks brought about through the cooperation among Pest Control Technicians, our other members, and the U.S. Environmental Protection Agency.

Sincerely,
